EVER SHINING!

Powder, cannon, shot, and shell, War and Death all pale and wan; Screaming hattles, deeds of Hell-Still the Sun shines on!

Undeterred by scenes of rue That its light streams down upon, Steady to its purpose true-Still the Sun shines on!

Gracious gifts of light it brings, Light for paupers, light for Kings; Lavish streams of warmth it sends Full of golden dividends-Warmth for harvest, warmth for heart-Ever there to play its part-May we be today as true To the work we have to do While the Sun shines on! (Copyright, 1915.)

Revenue Problem to Be Met.

Among the numerous problems which now beset the administration, not the least perplexing is that of revenue to provide for the government's expenses, which must inevitably be largely increased by the heavy national defense budget which the country is demanding. Even at the present moment the revenues are barely sufficient to meet ordinary expenditures, and in four months the special war tax expires by statutory limitation, while four months later there will be a further loss of income when, by the terms of the Underwood tariff bill, all sugars are to be admitted at our ports free of duty. Not only must these losses, amounting to something like \$100,000,000 annually, be made up, but from some source or other must be drawn the additional millions which are to be spent on the army and navy.

The President is represented as being in favor of a short-term bond issue to raise the funds for the national defense. He is probably right in assuming that a bond issue just now for such purpose would be an appeal to patriotism that would meet with hearty and popular response; though it is not unlikely that next year, after the money has been contributed and is in process of exthe contribution to the national treasury. The statisticans of the G. O. The Comfortable People. By JOHN D. BARRY.

As a rule the comfortable people have a delightful humor. In everyday life they find a surprising number of things to laugh at. Not that they ridicule. Toward others they never take the superior attitude. On the contrary, their humor carries no sting. It is perfectly innocent. It creates no uneasiness. In it any one can join. Often the comfortable people laugh at themselves. They show that they feel their own relation to the absurdities of life and the incongruities of humanity. They are true philosophers.

The French Army Mustache.

We know that our soldiers have been allowed to do away with their facial hair. It has been shown that the soldiers of Napoleon remained freely beardless and that the absence of hair beneath the nose accorded with the views of hygienists.
